About This Collection

Inside this gallery, we celebrate urban planning research grants with a provocative twist. Each shot is a strategic plan for desire, a data-managed encounter. Our models, echoing the spirit of Taubman College and the Architectural League, embody the paradox of choice as they create their own development strategies. Against a backdrop of green infrastructure and smart sustainable cities, you'll find portfolios of mobility and sustainable development, from aerial images to participatory planning. Ready to explore? View the full gallery via the link above.
